- Record 4 channels individually by SD card, each channel can set different resolution

### SD Recording

Support SD card up to 128GB

### Quad Mode

Support up to 4 cameras

### HD Resolution

Record & playback up to 720P / 1080P

### IR Night Vision

Ultra clear B & W in night

### Secure Digital Signal

200m long distance transmission

### Motion Detection

Detect changes with recording trigger

## Specifications

Monitor	
Operating frequency	2.4GHz
Receiving sensitivity	-89dBm
Type of spread spectrum	FHSS
Video compression format	MPEG4
Recording frame rate	720P: 15fps@720P; 50fps@VGA 1080P: 15fps@1080P; 30fps@720P; 90fps@VGA each channel resolution adjustable
Transmitting distance	up to 200m (line of sight)
Number of camera support	up to 4 cameras
Memory capacity	up to 128G
Camera	
Image sensor	Color CMOS
Resolution	720P / 1080P
Video compression	MPEG4
IR LED	ø5mm, 24pcs
Minimum illumination	0 Lux (IR ON)
Transmission power	14 -18 dBm
